

Shell RIDE Quick Start Guide

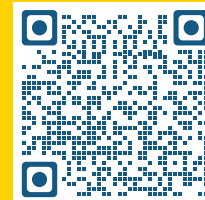

SET-UP

- 1 Unfold the SR-5S.
- 2 Connect the black power cable in the handlebar to the cable connector in the steering post (Image A).
- 3 Attach the handle bar to the steering post with the four screws provided in the box (Image B). Use the wrench included to tighten the screws securely without over-tightening which could result in stripping the heads of the screws.
- 4 Plug in the AC adapter into the SR-5S and then into the wall outlet until the green light displays on the AC adapter which means the SR-5S is fully charged.
- 5 Download the SHELL RIDE APP from the Google Play Store or Apple APP Store on your mobile device.
- 6 Once the SHELL RIDE APP is downloaded, the APP will walk you through the setup process.
- 7 Watch the SHELL RIDE safety video.

Shell RIDE App

Go to the Google Play Store (Android) or the Apple App Store (iOS) and search for "Shell Ride" to download and install the App. Be advised there is a minimum Android/iOS/Bluetooth version required. See User Manual for additional details.

SR-5S
QUICK
SETUP

Time to RIDE

- 1 Power on the SR-5S. Wear a helmet.
- 2 Place one foot on the rubber deck mat with the other foot on the ground.
- 3 Push off with your foot on the ground while touching the throttle with your right thumb.
- 4 Steer by using the handle bars and also slight leaning either left or right while turning.
- 5 Brake and stop by depressing the brake lever on the right side of the handle bar which engages the rear disc brake. Dual braking is achieved while depressing the right brake lever and the electronic brake located on the left side of the handle bar using your left thumb.

WARNING

Please read the user manual and watch the safety video before riding your SR-5S! Always wear a helmet. Follow local traffic laws and know proper rules for operating e-scooter in your area. Avoid safety risks while being courteous to pedestrians.
